

Commonwealth of Kentucky
Division for Air Quality
EXECUTIVE SUMMARY

FINAL

Conditional Major, Operating

Permit: F-07-058

Actaris U.S. Gas Inc.

Owenton, KY 40359

February 29, 2008

Mark Labhart, Reviewer

SOURCE ID: 21-187-00005

AGENCY INTEREST: 6265

ACTIVITY: APE20060002

SOURCE DESCRIPTION:

On April 20, 2006, the source applied to the Division for renewal of their air permit. Actaris manufactures gas meters. VOC and HAP emissions result from molding, curing, sealing, gluing, painting, and solvent cleaning. The source is potentially major for VOC, individual HAP, and combined HAPs.

The only significant sources of particulate matter (PM) are the painting and powder coating application. PM emissions from painting and powder coating are controlled by filters.

PUBLIC AND U.S. EPA REVIEW:

On January 23, 2008, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in the "Owenton News Herald" in Owenton, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA on January 16, 2008 via e-mail. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
